I hereby express my great interest in continued service in Journal of Clinical Trials as an Editor. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in PubMed Central. Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

Sincerely,

Dear Madam/ Sir,

I am writing to you with regard to the Journal of Clinical & Experimental Ophthalmology, of which I have undertaken the editorial board member and the organizing committee member.

I strongly recommend the Journal of Clinical & Experimental Ophthalmology to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

I sincerely hope that you will kindly accept this recommendation.  
Thank you in advance for your cooperation and attention to this matter.

Sincerely,

A handwritten signature in cursive script, reading "Susumu Ishida".

**Subject: Journal of Community Medicine and Health Education**

Dear Sir/Madam

I am writing you to in my capacity as an editorial board member of the Journal of Community Medicine and Health Education. I have been working with the Journal from its inception and am well aware about its regular release of issues and the quality of manuscripts that have published so far. The peer review process of the journal has been undertaking by highly qualified experts in the field and the time frame of publications of the articles submitted in the journal is much faster compared to many international peer reviewed journals. I understand the journal publishing committee is submitting an application for indexing of the journal in PMC and I support their application.

I strongly recommend that the Journal Community Medicine and Health Education to be indexed in PubMed Central. The Journal staff and the editorial board members have been working hard and efficiently for the journal to establish its high professional standing.

Should you have any query about the journal quality and its publications please do not hesitate to contact me via email. Thank you in anticipation.

Yours sincerely,

GEORGETOWN UNIVERSITY MEDICAL CENTER

**Re.: Application for PubMed Indexing by the Journal of Cancer Science & Therapy**

Dear Madam/Sir,

I am writing this letter to state my support of the application for indexing in PubMed submitted by the Journal of Cancer Science & Therapy (JCST, ISSN 1948-5956). Since its first release in 2009, the JCST has made important progress and demonstrated a clear ability to maintain a consistent schedule for the timely release of regular issues as well as special monothematic issues. Currently in its volume 5, the JCST has published many articles of interest to scientists both in the United States and abroad.

The JCST has already satisfied the criteria to be indexed by a number of databases, such as CrossRef (which assigns a DOI to every published article), PubsHub, SCOPUS, Socolar, EBSCO, Chemical Abstracts, Index Copernicus, HINARI, and Scirus. In addition, a number of JCST papers reporting NIH-funded research have been published in PubMed Central.

By supporting the Bethesda Statement on Open Access Publishing, the Journal of Cancer Science & Therapy reaches a world wide audience and increases the visibility and impact of published work. The Journal of Cancer Science & Therapy follows the Creative Commons Attribution License and Scholars Open Access publishing policies, which permit anyone to copy, distribute, transmit and adapt the work provided the original work and source is appropriately cited. Consequently, by providing barrier-free access to the research literature, it greatly contributes to the progress in scientific and technical disciplines.

(contd.)

NCI  
CCC

*A Comprehensive Cancer Center Designated by the National Cancer Institute*

I strongly endorse the Open Access publishing movement and support the application by the Journal of Cancer Science & Therapy for indexing in PubMed with the strongest possible enthusiasm and without reservation.

Please, do not hesitate to contact me if additional information regarding this matter were needed.

Sincerely,

A handwritten signature in black ink, appearing to read "Vicente Notario", enclosed within a large, loopy circular flourish.
